About

Olle Stjerne (1984, Kungsholmen, Stockholm) lives and works in Amsterdam.

I explore the landscape and the city. My sculptures exist in the borderland between the digital and the physical world. My practice also includes music, video, performance and social engagements, such as workshops and residencies.

I live in Amsterdam with my family and am active both in Stockholm and internationally. I make exhibitions and assignments in public space. Alongside my own artist practice, I am a teacher, curator and lecturer and produce video for galleries and institutions.
